

ISLE OF MAN
PENSION MATTERS

Safeguard your future

Message from Karen Badgerow, Chief Executive of the Isle of Man Financial Services Authority

Planning for the future is something that everyone needs to consider.

The Pension Matters campaign seeks to get people talking about what they want for their retirement and how they are going to fund it.

Our aim is to raise awareness and provide impartial information to help people take those important next steps.

We want to give people things to think about, such as how do you start saving for a pension and how do you go about setting goals.

This is a very positive campaign which is intended to empower people to plan for their future. There is a note of caution too in some of our literature, about fraud and the need to be aware of investment risks. As the old adage says, don't put all your eggs in one basket.

It is never too early or too late to plan for your future. I would encourage you to start planning now and reap the rewards when you retire.

Karen Badgerow
Chief Executive of the Isle of Man Financial Services Authority

About the Isle of Man Financial Services Authority

The Authority is a statutory board responsible for regulating certain financial services businesses operating in or from the Isle of Man. Its regulatory objectives are:

- 1. securing an appropriate degree of protection for policyholders, members of retirement benefits schemes and the customers of persons carrying on a regulated activity;*
- 2. the reduction of financial crime; and*
- 3. the maintenance of confidence in the Island's financial services, insurance and pensions industries through effective regulation, thereby supporting the Island's economy and its development as an international financial centre.*
