g. Customer loans

More data on lending is available in the Authority's Statistical Lending Bulletin which is available on the Authority's website.

5. Capital adequacy

a. Regulatory capital

The above data is taken from prudential returns SR-2A.

Notes for Editors:

- i) The figures represent capital for Class 1(1) and Class 1(2) banks incorporated in the Isle of Man only.
- ii) Minimum capital requirements are defined with reference to a bank's CET1 ratio, Tier 1 ratio and Total capital ratio. CET1 capital is the best form of capital a bank can hold.

b. Capital ratios

"Minimum capital requirement" means:

- (a) such CET1 ratio, Tier 1 ratio and Total capital ratio as the Authority may direct in the case of that licenceholder; or
- (b) where no such direction is given, a CET1 ratio of 8.5%, a Tier 1 ratio of 8.5% and a Total capital ratio of 10%.

All banks must notify the Authority if their ratio falls to within 1% (or higher) of their prescribed minimum Total capital ratio, i.e. a minimum notification level of at least 11% is set for banks with the prescribed minimum of 10%.
